10 Ways We'd Like To Say "No" to Your State Association (and to everyone of your members)

Sometimes "no" is a good thing like when it gets your association and your members no fees, extra charges, penalties or other hidden costs for credit card transaction processing. Compare Payment Processing Consultants to your current processor and you'll say "yes" to PPC.

1. No application fee to sign up to accept credit cards.
2. No annual fee which many credit card processors charge.
3. No service terms so you can cancel at any time.
4. No cancellation fee unlike some processors that charge \$100 – \$1000 to cancel your account.
5. No voicemail phone support. A live, knowledgeable customer service staff is always available 24/7.
6. No monthly minimum unlike most card processors.
7. No equipment service or warranty fees for as long as you use PPC for your processing.
8. No daily fees. PPC provides daily deposits that exactly match the charged dollar amount.
9. No accounting hassles with end-of-month processing fees.
(Most processors bill on a weekly or daily basis.)
10. No charge to setup Discover, American Express and Voyager accounts.

State chiropractic associations in Florida, Hawaii, New Hampshire, New York, Ohio, Pennsylvania, and Virginia all make non-cash transactions easy for themselves and their members using PPC. Put that experience to work with high-value/low-investment benefits that help improve your members' marketability and profitability. Your members will thank your association for the savings.

Best of all, you can use PPC with confidence. Not only are we endorsed by the Better Business Bureau, but we're also the Endorsed Credit Card Processor for the BBB of Upstate NY.

There's lots more reasons to use PPC as your state associations's credit-card processing company. Visit www.ppcsales.com/associations.html for more benefits or call our friendly, knowledgeable staff at **888-282-5384**.
